### ABBK MAHASABHA DOCTORS FORUM INVITATION

Dear Doctors,

Greetings !!

It gives me great pleasure to reach you and share my thoughts and solicit your valued opinion. Thanks to the momentum in our Bhavsar samaj and the privilege, I get to meet the medical professionals of our samaj which has prompted me to share this communication with you.

It is matter of pride to note that we have exemplary achievers in the medical profession all over the country & abroad. I am deeply impressed to note that there are some families amongst us dedicated to this noble profession. Our doctors are engaged in serving the needy to cover the entire spectrum of the economic strata and also in various specialties & super specialties , both in India and in the international stage. During all these interactions, I noticed that our doctors are not connected with each other and lack a common platform for sustained communication. Many of you have already shared this concern with me in person.

In view of this and on behalf of ABBK Mahasabha, I propose to create a forum for all our Bhavsar medical professionals to integrate, interact and leverage their professional endeavours for pursuing further excellence in their chosen fields. I am sure that you'll agree that such forum is long overdue and is a welcome move.

To move forward on this goal, the proposal is to launch ABBK Doctors Forum with following objectives:

- Build a state level & national level bodies to expand the forum for sustainable interaction.
- Reach this message to all our medical professionals and build a strong forum for mutual benefits.
- Encourage our young medical professionals to achieve professional excellence.
- Contribute to the healthy Bhavsar community by actively participating in future program like *Bhavsar Arogya Sparsha* , yet to be rolled out.

These objectives shall be achieved first at state level & converge at national level. In the first phase, we have identified Maharashtra, Karnataka & Andhra Pradesh states. To roll out this program, following Coordinators have consented to take the lead for the respective states as mentioned.
